Introduction to Numerology

It has been a while since we discussed Numerology in-depth. As a practice Numerology still holds a lot of interest, not least because it is an easy way to enter the world of foretelling the future.

Numbers and the Alphabet

Ancient Egyptians believed there was an almost magical link between letters and numbers. In Greek and Hebrew cultures, a scientific approach to the interplay of letters and numbers was practised. By assigning a number to the 22 letters of the Hebrew alphabet.

Pythagoras

In the 6th century, a Greek mathematician, you will no doubt know from your school days, was Pythagoras. He popularised the version of Numerology that we recognise today. To a mathematician, everything can be reduced down to a number; their thoughts are that numbers rule nature!

It's all in a name!

The idea behind Numerology is that you can analyse a name and gain valuable information about your character. You can analyse the name your parents gave you (very significant). Your full name with the surname. Your married name, and even the names of people connected to you: partner and children, for example.

The Numbers

If you research Numerology, you will find various number/letter keys. The one below is probably the most straightforward to use:

1	2	3	4	5	6	7	8	9
A	B	C	D	E	F	G	H	I
J	K	L	M	N	O	P	Q	R
S	T	U	V	W	X	Y	Z	

You can see from the image that there are numbers 1 to 9. Two other numbers are significant: 11 and 22. In each case, you break down a name (into numbers); until you reach a single number. If your initial calculation derives an 11 or 22 - these are not reduced further and are known as Master Numbers.

So, for example - if your name was Julie: J 1 + U 3 + L 3 + I 9 + E 5 = 21, then 2 + 1 = 3.

Analysing your name uncovers your personality, also specifically, how you express yourself outwardly.

Date of Birth

It is also possible to use Numerology to analyse your date of birth.

2nd December 1958: 2 + 1 + 2 + 1 + 9 + 5 + 8 = 28, then 2 + 8 = 10, then 1 + 0 = 1.

Generally, when you are working with birth dates, they produce a Life Number. Each number: 1-9, 11 & 22, would detail your unique personality characteristics, which are fixed - in other words, your inner-most nature.

Series

Turn to page 9 to learn how we are going to analyse your name and what information it is going to tell us.

Capricorn In-depth

Capricorns are ruled by the planet Saturn. They are the tenth sign of the zodiac, dated 22nd December to 20th January. Their symbol is the Sea Goat, who rose from the waters of the unconscious, bringing civility to humanity. Their cardinal Earth nature makes them responsible and accomplished; they put all resources at their disposal to good use, especially to further their ambitions.

Dress Sense

Capricorns tend to dress quite conservatively. They like darker colours, navy, grey and black being favourites - possibly with splashes of white. They are stylish in appearance, even when dressed down.

Personality Traits

This star sign is very resistant to change. Capricorns gain from Saturn qualities: resilience, strength, discipline, but lose from the polarity being negative - meaning they don't always see the joy in life and are rarely spontaneous. School years are not always the best for this zodiac sign; but, once they are out in the world of work and can prove themselves, things improve. They gain materially and achieve success and status, which makes them happier. Once established, they will use their skills to explore a more spiritual side of life. They also often help those less fortunate.

Emotional Intelligence

Saturn is again at play with Capricorn and emotions; it is deemed a weakness to show and express their feelings. Whilst outwardly they can appear self-confident, often underneath, they can feel isolated and lonely. They can come across as aloof, but really, they are scared of expressing affection and warmth to others. They can be critical, almost as if to get in first, rather than be hurt by rejection.

Love

You can trust that if a Capricorn says they love you, they mean it. Flirting and showing interest in others does not come naturally. Nevertheless, they are interested in long term meaningful relationships. Once committed, they are faithful, caring and considerate of their partner.

Strengths

Capricorns have seemingly unlimited patience! They are wise, organised and have good attention to detail and handle complex tasks. They have a satirical sense of humour, which is well received, especially by their friends - to who Capricorn are very loyal.

Angel

PIN: 1441

Reader Profile

Angel is blessed with very strong connections to Spirit which makes her a very gifted medium. She believes a medium cannot be made; you can only be born with the gift, it is not something that can be taught! From a very young age Angel knew she was different, sensing everything around her. She is very sensitive to noise, light and taste and that is reflected in her readings.

Within her readings, Angel may start by choosing some Angel or Oracle cards. She has a very natural, intuitive approach, often messages from Spirit flow freely and consistently. Angel also shines as a medium and gives great comfort and support to all of her customers; especially those that have lost loved ones.

In terms of how Angel lives on a day-to-day basis, she enjoys walking in nature, being around trees and in the fresh air. Connecting with nature is so important to her. Angel feels that Earth energy can keep us grounded and energised.

When possible, Angel likes to start her day with gentle yoga moves, which is good for keeping both her body and mind flexible. To end the day Angel likes to carry out self-Reiki healing on her Chakra's; she often finds then, that when she goes to bed, she gets a fabulous night of deep sleep.

Sensing Spirit from a very young age and forming very deep bonds with animals and pets, she was nicknamed 'Snow White'. Angel could be classed as an old soul; she was always way beyond her years growing up.

Testimonials:

I had the most wonderful reading with Angel tonight. She is such a nurturing and warm-hearted person who was extremely spot on and informative. I would whole heartedly recommend her. I will certainly get a reading from her again in the not-too-distant future.

Yvonne

Just had a reading from Angel and she was so lovely, easy to talk to and really interested in advising me. She was also very non-judgemental about a situation I wanted clarity on and I would recommend her highly; I have been to many psychics over the years and she ranks highly. Thanks Angel

Archangel Michael

Archangels are the highest-ranking angels and feature in many religions. In some religions, you may see Michael referred to as Mikhail. The name Michael means Who is like God. This interpretation is not literal. Instead, it should be considered a rhetorical question meaning, no one is like God and that Michael represents a symbol of humility before God.

Chief Archangel

Archangel Michael defeated angel Lucifer after a mighty war in heaven; Lucifer was cut down to earth where he was then known as the fallen angel - Satan. This demonstration of courage; leads many people to believe that Michael was Chief Archangel and head of Virtues. Virtues are where angels help humans demonstrate courage, especially under conditions of adversity.

Sword & Shield

Michael has a sword (possibly made from a sapphire blue flame) and shield. The shield and sword have two different meanings: the shield represents protection, and the sword is a symbol for helping us cut away things that are no longer needed.

Michael can protect us both physically and mentally by guiding us in our lives. He can also help us to understand our life purpose and be called upon when we lack commitment, dedication or motivation when we most need it.

Support & Guidance

Many people turn to angels in times of need and usually to one angel in particular. Archangel Michael is always there to provide support and assistance. Call upon Michael when you have questions about your life direction. Or when you need strength to carry on.

For people who are visited by him unexpectedly, it may mean that they require some assistance in their lives. If this occurs, you may feel hot and even see blue flashes or purple circling around you. Perhaps strength or encouragement towards a new goal is required, or cleansing and protection in a time of need. Archangel Michael's sword is there to give us a nudge in the right direction.

Angelic Presence

The presence of Archangel Michael can help you to find the people in your life that can aid, serve and guide you through trying times – these may be friends, family members, colleagues or even people you have yet to meet. Michael can help you with the difficult task of asking for and then accepting support.

SPOTLIGHT ON KYANITE

Kyanite is not that well known but is a fantastic crystal to work with, especially if you are trying to stimulate your psychic abilities. Using this stone will assist you in transmitting and amplifying higher frequency energy. You should find your ability to meditate and tune in is much easier with frequent use of the gem.

Spiritual Uses

Kyanite has many functions; you can use it for chakra work, especially when clearing meridian pathways. It has a very healing and transforming energy. It is a compassionate crystal and brings maturity and spiritual integrity to the fore. This stone can also be valuable in dream interpretation; to bring about calmer sleep and more healing dreams.

If you are experiencing high levels of stress, frustration and even anger, then working with Kyanite can cut through all of those emotions. So, you can get to the heart of the matter on a spiritual and psychological level.

In conjunction with the Throat Chakra, you will find it easier to find and speak your truth. It does help when good communication is needed, and your self-expression is crucial. You will feel unblocked and less fearful when using this gem.

Kyanite Colours

Kyanite is mined in Brazil and is classified as a bladed crystal - hence its shape. It can be a mix of white and blue, as seen in the image, but also comes in green,

pink, yellow, grey and even black. It can also be pearlized, transparent or opaque.

It isn't a particularly rare crystal. Choose a black variety if chakra work and meditation are your primary focus. Choose blue to strengthen your voice. Both in terms of speaking your mind and more literally in terms of having to speak in public.

Healing

It can be helpful to wear Kyanite as a pendant; it can sit between the naval and heart, which will particularly help balance the yin/yang. This stone is a natural pain reliever; Kyanite focuses on lowering blood pressure, fever and healing infections. Its energies work best on the brain, throat, thyroid and adrenal glands.

Energy

One unusual aspect of Kyanite is that it never needs cleansing. That is because this crystal does not hold on to negative energy.

If you are unsure of the role that fate and karma play in your life, you will enjoy working with Kyanite; your capacity for logical thought will increase, you will like creating your way in the world.

Numerology: Calculating your Name into Numbers

Now that you've read about the magic of numbers, that is Numerology on page 4. We take an in-depth look at how to take your name and calculate the different numbers.

Which name to use

There are different thought processes for calculating a name. Some say it should be your full name, including any middle names. Some say you can work out your given name - first & surname, and then your married name (if applicable). Others think you should calculate the name that you use. For example: if your given first name was Jennifer, but you always go by Jenny, then calculate the latter. So, I think this is a personal choice based on what resonates most with you.

Numbers

We are going to use the chart shown below for numbers/letters. However, we are going to separate the vowels and consonants.

Take a blank piece of paper.

1	2	3	4	5	6	7	8	9
A	B	C	D	E	F	G	H	I
J	K	L	M	N	O	P	Q	R
S	T	U	V	W	X	Y	Z	

Write your name, and then put the numbers above and below. Depending on whether the letter is a vowel or consonant. *Some numerologists treat Y as a vowel for this purpose - you can decide.

Example:

Vowels: 1 6 5
Name: C A T H Y J O N E S
Consonants: 3 2 8 7 1 5 1

1st Calculation - Heart Number

To get your Heart Number, add the top line of vowels. So, from the example:

$$1 + 6 + 5 = 12, \text{ then } 1 + 2 = 3$$

2nd Calculation - Expression Number

To achieve your Expression Number, add the bottom line of consonants. So:

$$3 + 2 + 8 + 7 + 1 + 5 + 1 = 27, \text{ then } 2 + 7 = 9$$

3rd Calculation - Personality Number

To arrive at your Personality Number, you add the two above numbers (Heart & Expression) together.

$$\text{So, } 3 + 9 = 12, \text{ then } 1 + 2 = 3$$

*Don't forget that if any of your calculations arrive at an 11 or 22 - do not try to reduce them further - keep them as Master Numbers.

Next Month

The chances are you will have different numbers for the above categories. Each month we will explore a different number, and throughout 2022 - you can become an expert in the Numerology behind your name.

We will also load up all of the information, how to calculate all of the numbers on our blog - so you will be able to refer back any time: www.psychiclight.com/psychic-news/

A return to the Gilded Age

If you loved Downton Abbey, you should be excited about a new HBO/Sky TV series called - The Gilded Age.

The Story

As you might guess from the name, the TV show is a historical drama based in the late nineteenth century. The show will play out over nine episodes and is set during a period when America saw immense economic changes.

You can expect the TV programme to chart the conflict between the old ways and brand-new systems, and of fortunes, both won and lost - think familial inheritance and the nouveau riche.

"The Gilded Age begins in 1882 with young Marian Brook moving from rural Pennsylvania to New York City after the death of her father to live with her thoroughly old money aunts Agnes van Rhijn and Ada Brook. Accompanied by Peggy Scott (Denée Benton), an aspiring writer seeking a fresh start, Marian inadvertently becomes enmeshed in a social war

between one of her aunts, a scion of the old money set, and her stupendously rich neighbours, a ruthless railroad tycoon and his ambitious wife, George (Morgan Spector) and Bertha Russell (Carrie Coon). Exposed to a world on the brink of the modern age, will Marian follow the established rules of society, or forge her own path?"

The Stars

Much of the cast will be familiar to you: Cynthia Nixon (Sex in the City) and our cover star Christine Baranski (The Good Wife & The Good Fight) play the Aunts. Unusually the lead role (Marian) is played by a newcomer - Louise Jacobson. It's probably fair to say that acting is in her blood, as she is the daughter of Oscar winner - Meryl Streep.

Release Date & Trailer

The show is due to air from the 25th January 2022; 9pm each week via Sky Atlantic and streaming service NOW. It starts a day earlier in America on HBO - so don't read any spoilers in the press.

If you can't wait until then, check out the trailer: <https://tinyurl.com/GildedAgeTV>

Reader Profile

Ruth
PIN: 2022

Ruth is an experienced medium who has decided to devote her whole life to spiritual development. As part of her work Ruth gives messages from folks departed loved ones from the platform in Spiritual Churches. Her greatest joy is in the hands-on healing and teaching of others. She has studied and qualified professionally as a Counsellor and Hypnotherapist in order that she may understand the psychology of people.

The journey for Ruth first began as a young child when she experienced a family tragedy, that was the catalyst or the beginning of her spiritual mission. She realised that in some ways she would have to grow up quickly as she was not going to escape life's troubles, tribulations and tragedies even from that young age.

As Ruth grew up, she came to the conclusion that to live a happy and joyous life was all about trying to understand people, including one's own family and sharing in unconditional love, compassion and forgiveness. Anger and resentment just had to go and she came to realise that whatever the question was 'love' always had the answer!

Then, Ruth decided to work on a much deeper level in developing and understanding her connection with the Divine, her Angel helpers and Guides. She worked on her personal spiritual growth, emotional strength, maturity and emotional intelligence. It is in the finding and attempting to practice all of these things that can make us the real Master!

Ruth believes that having the ability to adapt to life's situations and circumstances is really important as one can get stuck in a rut and in belief systems that just do not serve and can restrict the ability to live life to the full. So, when something isn't working, try not to be scared, just believe in yourself and attempt to change it...

Ruth's total dedication and sincerity are immediately apparent to all who speak with her.

Testimonials:

Clear, concise and kind. Spot on about everything. Connected straight away. Great link with spirit guide and myself.

Carmelina

Thank you, Ruth, for being so patient and kind on our call. You touched on things I needed to hear and I was so happy to hear from the one person I was seeking guidance from. I will be back. Your gift has opened my eyes up more than you know. Thank you xx.

Even if we don't label them New Year resolutions, most people ponder at this juncture what will the year ahead have in store for me. You might also have a list of goals and things you want to achieve.

Despite us all being unique, it is surprising that year-in, year-out the same themes crop up for ways we want to improve our lives:

- Find love, or sort out problems in an existing romantic relationship.
- Lose weight.
- Improve fitness.
- Give up smoking.
- Cut back or completely stop drinking alcohol.
- Change job or even have a complete career change.
- Move home, or embark on a DIY project.
- Learn a new skill; for example: play an instrument, learn to cook, or speak a new language.
- Pay down debts and save for a rainy day.
- Book a holiday, and travel more in general.
- Get a better work/life balance and reduce stress levels.
- Spend more quality time with family and friends.

#NYRES

These aspirations are admirable, but often, we fail miserably with New Year resolutions. Sometimes, this is due to approaching too many things at once. Other times, it is because our enthusiasm wanes as time goes on and everyday life gets in the way. It can also be that our route to achieving the goal is not targeted or specific enough. We may also find it hard to track progress.
